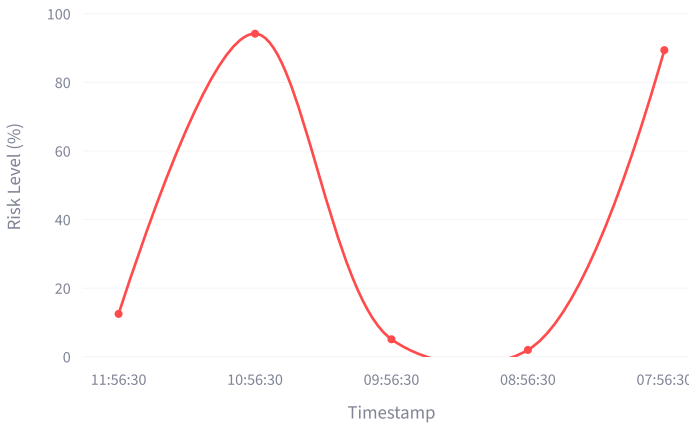
# FraudX AI: Operational & Strategic Dashboard

*This independent monitoring unit tracks the AI engine's performance, financial impact, and model stability in real-time.*

| Total Transactions | Fraudulent Acts Blocked | Financial Loss Prevented | Engine Status |
|---|---|---|---|
| 5 | 2 | $3,250.00 | OPERATIONAL |
| | ↑ 40.00% Rate | ↑ Social Impact | ↑ 99.9% Uptime |

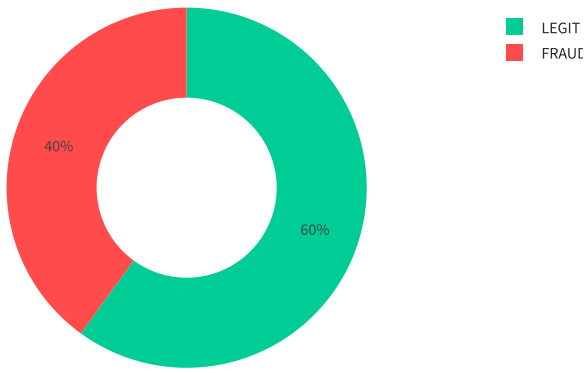
## Risk Score Evolution (Concept Drift)

**Real-Time Risk Probability Trend**



## Detection Distribution

**Legit vs. Fraudulent Ratio**



## Production Audit Log (Feedback Loop Data)

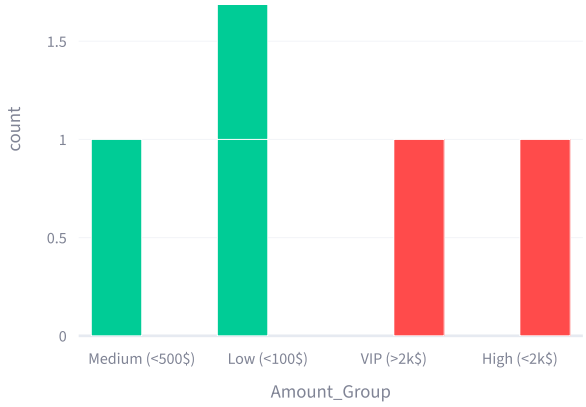
Recent observations used for Active Learning and retraining cycles:

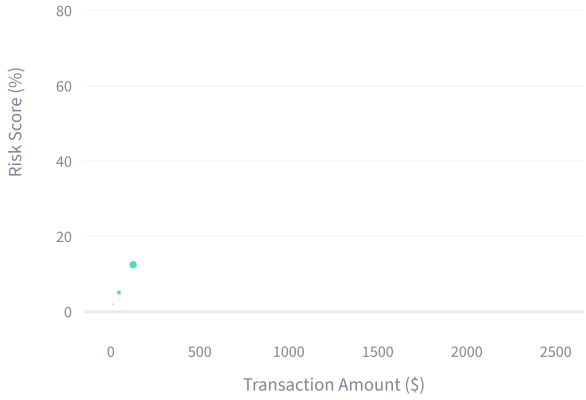
| | Timestamp | Amount | Risk_Score | Status | Risk_Numeric |
|---|---|---|---|---|---|
| 0 | 11:56:30 | 125.5 | 12.5% | LEGIT | 12.5 |
| 1 | 10:56:30 | 2400 | 94.2% | FRAUD | 94.2 |
| 2 | 09:56:30 | 45.99 | 5.1% | LEGIT | 5.1 |
| 3 | 08:56:30 | 12 | 2.0% | LEGIT | 2 |
| 4 | 07:56:30 | 850 | 89.4% | FRAUD | 89.4 |

## Deep Dive: Financial Risk Distribution

**Fraud Density by Amount Range**

**Risk vs. Transaction Value Correlation**





## Model Maintenance & Retraining Trigger

Set Alert Threshold (Recall)

0.90

The system is currently operating at 92.4% Recall. (Threshold Target: 0.9)
